As you are aware, I serve as counsel to the County of Sussex and, more specifically, the five members of its commission board. You have identified yourself as a pro se litigant. As such, you may not communicate with my clients directly and will cease and desist from doing so immediately. Any further such communication by you to my clients via their personal or governmental addresses will be addressed directly to the Court. Your threats to Commissioner Space and her family are today being reported to state and local law enforcement as your illegal impersonation of a federal law enforcement official was reported to federal authorities yesterday. As an aside, the County Commissioners have no authority or control over the College or its governance and have no business whatsoever being tied up in your legal affairs or lawsuit. That said, there will be no county settlement and I have no intention of responding to the remaining baseless allegations of your meritless complaint except through counsel and in court.

Douglas J. Steinhardt, Esq.
Florio Perrucci Steinhardt Cappelli & Tipton LLC

[redacted]

Ms. Space.

I wanted to bring to your attention that over the past couple of months, I have received anonymous messages containing personal details about your family. Please be assured that I have deleted all relevant information and blocked the sender. These reprehensible tactics are clearly an attempt to tarnish your upcoming Commissioner bid by exploiting my grievances against both the County and the College. I will not contribute to the cesspool of local county politics, however I will continue to fight for my liberty and freedom in the face of State opporession.

Sincerely,
